First Coast Vision: Join Us at Town Hall Meetings on the Future of the First Coast

“The Future’s So Bright,
I Gotta Wear Shades”
Timbuk3, 1986

The recession has not stopped our beautiful Northeast Florida from working on a vision for growth and development in the Region for the next 50 years.

Regional visioning efforts kicked off with Reality Check First Coast in May, 2009. Since then, the Reality Check Lego® brick and yarn visioning exercise has been repeated in each of the seven counties of the Region, as well as in a youth-only forum. These exercises resulted in six Guiding Principles, recommended to guide how we develop and grow for the next 50 years, and four Growth Patterns, that could describe the way that we grow.

Learn about First Coast Vision at a meeting in your county. You will have the opportunity to choose the growth pattern you prefer for the Region, to talk with your neighbors and planners about the draft goals and objectives being contemplated for inclusion in First Coast Vision, and to give planners your input. Once First Coast Vision is completed in Fall 2011, it will be provided to the Northeast Florida Regional Council before they update the plan for the Region, known as the Strategic Regional Policy Plan.
