Good Morning Pia,

I have reviewed the corrections and adjustments made to the attached 2024-25 Rate Model Calculation Spreadsheet for some of the most common procedural and utilization errors. Items previously noted have been addressed and it is approved for further review at the local level as appropriate. My review and opinion does not confirm the validity or accuracy of any financial or operational data elements that have been entered, nor does it address the reasonableness of the unsubsidized cost of services.

By copy of this email, I am advising your planning agency on our completion of this effort and the readiness to advance the spreadsheet to the LCB for <u>approval and inclusion in the TDSP update</u>.

When the time comes, I will produce your T/E grant contract with the passenger trip rates from this spreadsheet presuming no further changes by the LCB.

Hi Pia,

I see that you moved 1.7 million of county cash from the Subsidy column to the match column. That adjustment will increase your trip rates substantially The change made the rates go from originally \$7.30 to \$24.84 AMB trip rate and \$12.51 to \$42.58 WC trip rate. I just want to make sure you are aware of that.
