4. Regional Transit Working Group Report

Liz Peak with the Regional Mobility Group gave a presentation on the Northeast Florida Coordinated Mobility Plan.

The Northeast Florida Coordinated Mobility Plan is a regional effort. The purpose of the plan is to identify transportation needs of individuals with disabilities, older adults, and people with low incomes. It also provides strategies for meeting these needs and prioritizes transportation services for funding and implementation. The schedule to implement the plan is approximately September during the regional meeting with LCB members. There was also a survey shared at the end of the presentation.

Fred Jones from The Haskell Company gave a presentation on Creating Safe Spaces Action Plan (CSSAP). Mr. Jones updated us on the Action Plan progress. Over the past couple of months, the Haskell Company has been diligently conducting research and analysis to better understand last mile safety needs in the region. There was a survey shared at the end of the presentation. The survey is aimed to understand public perceptions, concerns, and experiences related to roadway safety in the region. The survey will reveal valuable data on safety perceptions, including common safety concerns and high-risk areas. Insights from the survey will help inform the development of targeted safety initiatives and strategies within the CSSAP action plan.

The dedicated CSSAP Task Force was established to drive project development and implementation. Task Force comprises key stakeholders from various sectors, ensuring diverse perspectives to foster collaboration and consensus-building among Task Force members and leverage collective expertise to inform decision-making and strategy development.

The Task Force will be an embodiment of the City of Jacksonville Vision Zero Partnership with CSSAP. As we work together to improve Jacksonville's Pedestrian and Cyclist Public Health Crisis (6th Nationally) the project team will be collaborating closely with the City of Jacksonville to align CSSAP goals with citywide initiatives and regular communication and coordination will occur to ensure synergy and avoid duplication of efforts. This intentional partnership is established to maximize resources and

expertise through interagency cooperation to amplify impact and effectiveness of CSSAP initiatives through unified action.

This project is just being launched and is anticipated to be completed by fall 2024. The final CSSAP action plan will serve as a framework for implementing Jacksonville Transportation Authority's (JTA) Complete Street program and will identify projects to execute and prioritize projects based on their potential impact and alignment with project goals. Through the project elements of analysis and engagement, CSSAP will identify key projects to ensure focused efforts and resource allocation for maximum effectiveness.

The action plan will outline specific strategies and actions aimed at fostering a culture of safety in the region. These strategies will address various aspects of transportation safety, including infrastructure, education, and enforcement.

Additionally, the plan will identify opportunities for demonstration projects that serve as models for future initiatives. These projects will showcase innovative approaches and best practices, increasing the likelihood of success for broader implementation.

The CSSAP action plan plays a crucial role in guiding the implementation of safety initiatives and achieving project objectives. By clearly defining priorities, strategies, and demonstration projects, the plan ensures focused and coordinated efforts towards enhancing safety in the region. It will also position JTA to pursue Safe Streets and Roads for all discretionary funding.

Good Morning Patty and Matt,

I have reviewed the corrections and adjustments made to the attached 2024-25 Rate Model Calculation Spreadsheet for some of the most common procedural and utilization errors. Items previously noted have been addressed and it is approved for further review at the local level as appropriate. My review and opinion does not confirm the validity or accuracy of any financial or operational data elements that have been entered, nor does it address the reasonableness of the unsubsidized cost of services.

By copy of this email, I am advising your planning agency on our completion of this effort and the readiness to advance the spreadsheet to the LCB for approval and inclusion in the TDSP update.

When the time comes, I will produce your T/E grant contract with the passenger trip rates from this spreadsheet presuming no further changes by the LCB.
